

ZERO BUDGET PRODUCTIONS

Catalogue & Trading Advice

Updated on: 29. 7. 2014

Thank you for consulting the Zero Budget Productions catalogue. Hopefully, the information below will help us arrange smooth trades. In any case, communication and responsibility should be the key words.

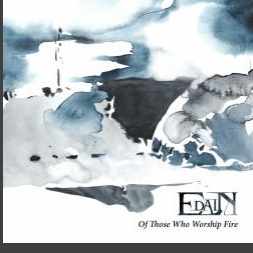

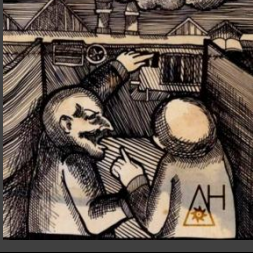

Please mind that Zero Budget Productions closed business as of June 2014. There will be no new releases or cooperations. However, I still listen to music, items in this catalogue are still available and trades are still welcome.

Keep it metal!

Shipping policies	I prefer to send packages by registered/priority airmail. For customs purposes (green CN-22 sticker), I declare packages sent outside European Union as secondhand/promo + low price. CDs without cases - should you request otherwise, let me know. People from non-EU countries, please, declare the price of the package max. 22 EUR – starting from April 2011, Czech Post as well as private shippers are obliged to collect duty on incoming packages above that price, needless to say they often charge nonsense high prices. Thank you for understanding.
Vinyl	I prefer to trade vinyl against vinyl. If nothing else, postage for vinyl records is much higher compared to CDs. Please respect this – or try to offer a fair trade. (No, 2 CDs for 1 LP is not a fair trade :)
Tapes	I like tapes and welcome a copy of your tape releases. (And I can give you 1 regular CD for it.) Hopefully, this means I will receive a tape, not a CDr with a tape cover. Mind that if you offer a tape on a CDr, you are actually insulting your own release!
CDrs	I can accept 1 (one) copy of a CDr release for my own collection. Feel free to ask for a regular CD in trade. But please mind I really have no use for multiple CDr copies.

Please, check www.edain.cz and related links for further details.

If you are interested in a split release or having our song on your compilation, feel encouraged to ask. We can work out something.

Also, if there is an option of playing a show anywhere, we'd like to know about it – our only conditions are good sound and a lot of fun.
